Training media

- **In person, instructor-led classroom training** – course is delivered live by an AT&T CALNET instructor at AT&T or State approved meeting facility. Attendees would need to travel to training site where instructor would be present in classroom.
 - **Audio/video/web-based instructor-led training** – course is delivered live by an AT&T CALNET Instructor via teleconference, WebEx or other online media. Attendees do not need to travel to attend. Email [CALNET Training](#) to request a training session.
 - **Web-based self-paced distance learning** – course is delivered via pre-recorded session. This may include recorded iMeetings and in-house developed training videos.
 - **Web-based written tutorials** – course is in .pdf format that provides screenshots and step-by-step instructions.

Available Courses

AT&T Billing Consolidator

Course length: 2 hours

Target audience: This course is designed for customers who are new to using AT&T Billing Consolidator. It is for those whose role includes validating invoices, paying bills or monitoring services and usage (i.e. billing department or accounts payable).

Course description: AT&T Billing Consolidator, formerly known as ACUS, is the tool for an agency to view bill detail online. It retains billing data, including usage detail, and payment history, for the life of the Contract. Users can run reports, search for specific information, and download complete invoices into .pdf format. This course will provide a high-level overview of invoices and interaction with the billing system.

Medium: Audio/video/web-based instructor-led training

Course content:

- What is AT&T Billing Consolidator
- Accessing AT&T Billing Consolidator
- Accessing an invoice
 - Download functionality
 - Search functionality
 - PDF file
- AT&T Billing Consolidator basics – home screen
 - Maintenance information
 - Reporting
 - Help

Course is available: June 2020 – ongoing

AT&T Billing Consolidator - Refresh

Course length: 90 minutes

Target audience: This course is designed for customers using AT&T Billing Consolidator, whose role includes validating invoices, paying bills or monitoring services and usage (i.e. billing department or accounts payable).

Course description: This is an online course focusing on the changes to AT&T Billing Consolidator and the new layout of CALNET invoices beginning with bills dated July 1, 2020.

Medium: Audio/video/web-based instructor-led training

Course content:

- Bill Payer Search screen
- The NEW CALNET Invoice
 - Navigation
 - Detail of Charges
 - Details & Downloads
 - PDF Download
- Help

Course is available: June 2020 – December 2020

AT&T BusinessDirect® for Managed Router Service (MRS) users

Course length: 1 hour

Target audience: This course is designed for customers with Managed Router Services.

Course description: AT&T BusinessDirect® is the web-based portal used to access support applications for AT&T Services and provides single sign on access to tools and information which enables registered users to manage their agency's network infrastructure more efficiently. This course will provide an overview of two of the tools available in the BusinessDirect portal: Report and Track Troubles and View BusinessDirect maps.

Medium: Audio/video/web-based instructor-led training

Course content:

- Accessing AT&T BusinessDirect
- Report and track troubles
 - Searching tickets
 - Displaying ticket search results
 - Managing and updating tickets
- View BusinessDirect Map
 - Displaying inventory
 - Viewing open tickets
 - Viewing router details
 - Reports
 - Troubleshooting

Course is available: March 2014 – ongoing

AT&T CALNET NextGen contract overview

Course length: 1 hour

Target audience: This course is designed for any agency who wants a high-level overview of the CALNET contract.

Course description: This course will provide a general overview of contracts, tools, reports and resources available under CALNET. This includes a general understanding of billing, ordering and tools available under the CALNET contract.

Medium: Audio/video/web-based instructor-led training

Course content:

- CALNET highlights
- CALNET contract terms
- Transition overview
- Who can use CALNET NG and how do they order?
- Authorization To Order (ATO)
- Billing
- Trouble Ticketing Reporting Tool (TTRT)
- Resources & support

Course is available: July 2020 - ongoing

AT&T Hosted Voice Service (HVS) administrator portal

Course length: 90 minutes

Target audience: This course is designed for the administrators of the agencies who will be using the Clearspan OpEasy® administrator portal.

Course description: This course will provide a high-level overview of the AT&T Hosted Voice Service (HVS) portal for administrators. This course will cover how to view and manage the HVS application for your organization. This includes updating user profiles, phone features, voicemail passwords and adding or deleting phones from the HVS system.

Medium: Audio/video/web-based instructor-led training

Course content:

- What is AT&T Hosted Voice Service?
- Logging in to the Clearspan OpEasy® portal
- Clearspan OpEasy administrator home screen
- Provisioning
 - Users
 - Virtual Users
 - Import / Export
 - Scheduling
 - Phone Management
 - Phone Templates
 - User Profiles
 - Group Settings
- Reporting
- Support

Course is available: April 2020 – ongoing

AT&T Hosted Voice Service (HVS) IP phones

Course length: 90 minutes

Target audience: This course is designed for the end users who will use the phones at their desk.

Course description: This course will provide a detailed description of the features and functionality of the Internet Protocol (IP) Polycom or Mitel phone device and the Clearspan Personal Voice Portal®. Participants taking this course will learn how forward, transfer, and park calls and setup conference calls. At the end of this course, participants will also be shown how to retrieve voicemail messages using their IP phone, or a touch-tone phone (wireline or wireless) from a remote location.

Medium: Audio/video/web-based instructor-led training

Course content:

- What is AT&T Hosted Voice Service?
- IP phones
 - Phone controls
 - Dialing basics
 - Phone features
 - Conference calling
 - Transferring calls
 - Parking and retrieving calls
 - Do Not Disturb settings
 - Feature access (star) codes
- Clearspan Personal Voice Portal
 - Overview
 - Setup
 - Phone keypad shortcuts
 - Mailbox settings

Course is available: March 2020 – ongoing

AT&T IP Flexible Reach – Department administrator portal

Course length: 1 hour

Target audience: This course is designed for the department administrators of customers with AT&T IP Flexible Reach services.

Course description: This course will cover how to use AT&T IP Flexible Reach services to manage your network. This includes viewing user profiles, modifying departments, group trunk groups, call routing features, and managing phone features.

Medium: Audio/video/web-based instructor-led training

Course content:

- What is IP Flexible Reach Premier?
- Logging into Premier for IP Flexible Reach
- Viewing user profiles
- Overview of the IP Flexible Reach Department administrator dashboard
 - Home
 - Resources
 - Administrators
 - User management
 - Reports
- Support

Course is available: September 2019 – ongoing

AT&T IP Flexible Reach – End user portal

Course length: 1 hour

Target audience: This course is designed for end users with AT&T IP Flexible Reach services.

Course description: This course will provide an overview of the IP Flexible Reach end user portal and managing services including modifying your profile, managing inbound call features, viewing outbound call features, and using schedules.

Medium: Audio/video/web-based instructor-led training

Course content:

- What is IP Flexible Reach Premier
- Initial Premier membership setup
- Logging into Premier for IP Flexible Reach portal
- Overview of the IP Flexible Reach End user dashboard
 - Home
 - Resources
 - Administrators
- Support

Course is available: September 2019 – ongoing
